

ARCHITECTURAL REVIEW APPLICATION
BOLIN FOREST PHASE II

The Bolin Forest Phase II Homeowners Association (BFPIIHOA) Architectural Review Committee (ARC) has developed the following guidelines for all proposed construction and exterior changes to existing properties as covered in the BFPIIHOA Covenants. A copy of the Covenants and the current composition of the ARC can be found at www.BFPIIHOA.org. Please note the Covenants allow thirty (30) days to approve or deny an application. The ARC, however, will make every effort to complete a review within two (2) weeks. No approval is complete without the signatures of at least two ARC members.

The Homeowner is responsible for submitting the following documents when a request for architectural review is made. *No review will be scheduled, nor will the review period begin, until all requested documents are provided.* For your convenience and to avoid construction delays, we encourage you to submit your documents as soon as possible.

- _____ Scaled site plan
- _____ Scaled architectural drawings
(Full set of construction drawings)
- _____ Exterior elevations
- _____ List of proposed building materials
- _____ Exterior color selections and locations
(Paint chips, sample tiles, etc.)
- _____ Location of proposed outbuildings and fences
- _____ Landscaping plan

Please submit one (1) copy of each of the above documents together with this form to Gary Giles, Chairman ARC. Mr. Giles can be reached at his home, 967-1561, or at his office, 929-7595.
