

Dear Neighbor

Thanks to all for coming out for a very productive workday and get together on May 22. We had participation from at least 14 of our households and I might have missed a few people since our projects were so spread out. We accomplished a great deal including:

- Playground Cleanup
- Tree Removal
- Phase 1 of a new nature trail (Gary Giles reported "in addition to his identification of various wild flower and plant residing in our nature area, Jock Wick also picked up a four ft. black snake so I could examine its markings, definitely an educational morning.")
- Completion of the horseshoe pits
- Completion of the Volleyball / Badminton Court
- Installation of 6 demarcation/information signs for the BFII common area
- Downing 6 pizzas and several 6-packs of soda

I encourage you to take advantage of our common area and the new gaming opportunities. We'll be looking for volunteers to organize some friendly competitions. Let me know if you're interested. Currently the nets, rackets, horseshoes and volleyball are at the Ross's house (932-2660) but were looking for another home for them. Let any of your Board members know if you have a housing idea for them.

As you use our common area, I also want to ask everyone to set good examples by leashing dogs and reminding visitors that all dogs need to be on leashes. The signs are good references but it's really the active engagement of visitors in one on one interchanges that will preserve the safety of and our ability to enjoy our common area.

Thanks again

Cliff Haac
President, BFIIHOA
